STAT 5. [] Returned to Harriet Robnett, Legislative Assistant to Senator Stuart Symington, copy 5 of the Senator's classified report on his recent travel to the Far East, Middle East and Europe with deletions or changes that we suggest be made. I pointed out that we had reviewed this report only from an Agency standpoint and that obviously there were questions concerning other aspects of the report which would have to be resolved from the standpoint of military and foreign policy considerations. I advised Miss Robnett that there was no objection to the Senator's including in his report a general statement to the effect that in most of the areas he visited he was in touch with the CIA representative in that area. (This follows the pattern established by the Senator in previous travel reports.) Miss Robnett said that she would check our changes against those which were being made by the military. I told her if she had any questions not to hesitate to get in touch with us.

STAT 6. [] Picked up from Senate Preparedness Investigating Subcommittee a letter for the Director signed by Senator Stennis indicating further Subcommittee study of Soviet forces which would require additional clearances for two staff members, Ben Gilleas and Stuart French, and requested the Director's cooperation. The Director has seen this letter and asked us to take care of it.

STAT 7. [] Talked with Mr. Donald F. O'Donnell, staff of the McClellan Permanent Subcommittee on Investigations. He wished to make sure that he was not interfering with any Agency affairs in connection with the possible subpoena of one [] STAT
[] I indicated we would look into this and advise.

STAT 8. [] Talked with Robert Michaels, House Appropriations Committee staff, in connection with a meeting of the CIA Subcommittee and a time was set for 3 o'clock on Tuesday, 14 November 1967. We discussed agenda items desired by [] STAT

STAT 9. [] Met with Senator Howard H. Baker, Jr., and delivered to him a blind memorandum in response to his letter of 31 October to Carl Duckett concerning an article in "Nucleonics Week" of 19 October. The Senator was most grateful for our assistance.
